Putin told reporters Thursday that an autopsy and DNA analysis of the cadaver confirmed Ilyushin died of heart failure at the hospital where he was treated after undergoing a heart procedure in June. The Kremlin said Wednesday that an autopsy had been ordered as part of an investigation into the cause of Ilyushin's death at age 77, though Putin himself said he had been informed of the results late on Wednesday night. Putin on Thursday praised Ilyushin as "an outstanding statesman" who was "a great patriot" and "a moral personality" who had "a tough character" and "characteristic virtues."
