

# Download

PRACTICAL LEARNING is a popular offering in international relations graduate schools these days as it helps meet the needs of employers.

Also, since many programs currently do not offer teaching, hands-on training provides students with academic opportunities to gain real-world experience which they need to know in order to become good professionals.

Thus, if students take part in practical training, they can gain invaluable experience that can greatly affect their academic preparation and ability to manage future

---

career achievements.
