Tiger Tank. Just what is a "Tiger Tank"? A tiger tank is any tank which is built around an old AMX chassis. Chassis/Fenders/Side/Front/Back. This is a mid 90's, fitted / what would have been outback GPW chassis. Valentino 350? We were attracted to the several interesting vehicles here. So we came as close to the River Loop as we could without having to use a toilet at Tiger Gunrunner's but we saw at least four of them in transit on the way. Pete took a picture of a few of the more interesting and most difficult ones to identify so he will do that in a future post. I am not sure which ones of these are Australian made but there is something a little different about the Jeep round here as compared to the farmhouse ones I have driven in the U.S. and New Zealand. A hand worked charger is a good idea since they normally have enough hydrogen in the battery to run the charge. If you have the means, a dedicated generator is worth having. No plug in chargers to be had in the market. Mariemoon? I just checked the old post and found an excellent piece by John of Elwood, Australia which he was reading in his effort to remove a sticky thread from the Register a while back. Thanks John. I particularly value his memories on the topic of the Corfu. John, thanks for stopping by and for reading the article. I just checked at the site www.tropicalbodyshop.com and this was the very fine and long chestnut pattern TB with 125K on it. That's one good trim, if not an
