.Q: Return empty array if not 'null' I have the following method: export const users: User[] = (await getUsers()).map(user => { return { user }); getUsers() is returning an empty array. Is there a way to set it to an empty array if there are no results? A: use an if statement? if (await getUsers()) return users; else return []; or just an empty array return users.map(...) Aspergillus. A major cause of opportunistic infections in hospitalized patients. Aspergillus is an opportunistic fungal organism that causes life-threatening diseases in severely immunocompromised patients. It is the third most common life-threatening infection in the United States and it frequently presents as a nosocomial infection. It has a predilection for the lung, although other sites may be involved. Host immunologic factors play a vital role in the pathogenesis of this disease and the predisposing factors include major predisposing diseases and immunosuppressive therapies. Diagnosis of aspergillosis should be considered in all hospital patients with fever, pulmonary infiltrates, cough, and a predisposition to pulmonary infections, particularly in patients with underlying bronchogenic carcinoma. The major problem with this disease is the difficulty of diagnosis in the absence of a microbiological demonstration of the causative organism. Although the diagnosis of aspergillosis is relatively straightforward in immunocompetent hosts, it is difficult in the severely immunocompromised. This article will review the biology, epidemiology, diagnosis, and treatment of this important opportunistic fungal pathogen.Gonzalo Montiel Gonzalo de Montiel (March 3, 1822 – October 14, 1860) was a Californio leader who was involved in the Pico de Orizaba rebellion. Biography Born in 1822, Montiel was the son of Manuel Gómez, a former chief of the nearby Tejeda Pueblo, and Maria de la Luz de Montiel. He lived his childhood in the Tejeda pueblo, north of Sahuaripa, and was tutored by the Mexican priest, Jose Juan Breva. In 1829, Montiel was captured by the chief of Sahuar
