invertebratesThe

inventors of the
present invention
discovered that double-
sided bentonite
particles were useful
in improving the
friction-reducing and
anticorrosion
properties of water-
thinnable emulsified
asphalt (WEA) and
emulsified asphalt

modified with
polymer latex. U.S.
Pat. Nos. 4,618,491
and 5,037,812
disclose a method of
producing a friction
reducing,
anticorrosion
emulsified asphalt
composition using a
double-sided or dual-
phase bentonite

containing emulsion.
The method produces
an asphalt
composition with a
water-thinnable and
friction reducing
properties. The
method comprises the
steps of: (a) preparing
a first phase of a
double-sided or dual
phase bentonite

suspension by
suspending bentonite
in a polar organic
solvent that is
compatible with the
polymer latex; (b)
preparing an aqueous
phase by dispersing
the first phase of a
double-sided or dual
phase bentonite
suspension into an

aqueous medium; and
(c) emulsifying the
first aqueous phase in
an asphalt system,
thereby forming an
asphalt composition
comprising the double-
sided or dual-phase
bentonite phase and
the asphalt. U.S. Pat.
No. 6,184,256
discloses a dual-phase

polymer latex dispersion that comprises a latex modified with a combination of a hydrolyzable silane and a clay. The dual-phase polymer latex dispersion is used to produce a coating mixture that has anticorrosion and

friction reducing
properties. U.S. Pat.
No. 6,827,749
discloses an improved
method of producing
an asphalt mixture
with improved
anticorrosion and
friction reducing
properties. The
method comprises the
steps of: (a) preparing

a first phase of a double-sided or dual phase bentonite suspension by suspending bentonite in a polar organic solvent that is compatible with the polymer latex; (b) preparing an aqueous phase by dispersing the first phase of a

double-sided or dual
phase bentonite
suspension into an
aqueous medium; (c)

Have you ever wished
that you could
calculate and display
the boundaries of a
hypothetical crystal
ball? A crystal ball is a
ball filled with liquid

or other material that is capable of refracting light. There are many crystal types, some with a refractive index of 1.36 at wavelengths of visible light (common colors). Crystal Ball with LSD Solution Overlay- The official application that

supports LSD Videos.

edition of the original
Oracle Database

Design Guide. The complete fifth edition is available to download. This guide consists of 16 chapters, including 11.1 Oracle Database Table Design.Q: The Strategy Pattern in PHP I want to build a simple taskqueue for my site. It is a simple

example: The Task class is the base class and has a constructor.

A TaskSet class is derived from Task and has the information of the tasks in the queue.

```
interface Task {  
public function run();  
}  
class ComplexTask  
implements Task {
```

```
private $children;
public function
__construct(array
    $children){
    $this->children =
    $children; } public
function run(){ foreac
h($this->children as
    $child) {
    $child->run();
    1cb139a0ed
```
