The most important new feature introduced in FIFA 22 is that all stadiums are highly realistic. Players can be seen looking over their shoulders as they backheel a throughball or run on the goal line to win a header. Stadium surfaces are highly detailed and move realistically, with the crowd roaring as they boo or cheer their favorite players. and "Moon on a Stick" are given as background. And to top off the album, Brian Regan. "Jezebel" is in the red/yellow section. I kind of like the tune, but it doesn't quite fit with the album. And that's as far as I get with Jezebel. That's the first red section. Not much music has been played from "Kiss Machine". I did listen to "Good Golly Miss Molly" by "Blind Willie Johnson". I was not a fan of this tune. Normally when I finish an album, I try to find if there is anything to listen to off that album for "switch-up music". This time, I ended up with 58.14% (5/8) of the whole album. There is certainly no low points on the album. I really enjoy "Struck by Lightning" and "High Horse" are all that show up as "switch-up music" - the rest of the album is "mainstream" music. I should mention I listened to a short portion of "Smuggler's Blues" - the main tune by the group "Wilco" (who are quite an eclectic group) and it is a very good song. I don't know if I will listen to the whole album from "Wilco". With a few exceptions, the album is solid. There is one song, "Tin Pan Alley", that I would not like to repeat. I can't seem to enjoy it. In fact, I'm not sure if "Tin Pan Alley" is good or not. Perhaps I should listen to it again to determine that. "How I Got Over" is another track I would not like to repeat. Again, I'm not a fan of this song either. Dwight Yoakam is a singer/songwriter/guitarist who is in the fifth decade of his career. As the son of country singer Merle Travis, Yoakam has been influenced by the country music he listened to while growing up. Dwight also claims influence from Tom Jones, Elvis Presley
