Multimedia Miroslav Philharmonik 1.1.2 Torrent REPACK

The Miroslav Philharmonik Orchestra and Choir contains over 725 MB of sample libraries and is most notably known for its . Jun 12, 2010 Miroslav Philharmonik is a complete orchestra and choir workstation with MIDI playback and the Miroslav Vitous Symphony Orchestra and Choir Sample set. For over 12 years the Miroslav Philharmonik Orchestra and Choir has been at the heart of international recognition. It is the only orchestral workstation with a collection of samples based on a mixture of world-class artists and composers: Mahler, Beethoven, Bruckner, Shostakovich, Davis, Ravel, Debussy, Tchaikovsky and many more. Starting from the OpenMI (undertaken by Masahito Hasegawa), the Miroslav Philharmonik Orchestra and Choir (MVO) has played a key role in disseminating this work to the world. With over 700 samples and more than 7 albums, in the definitive version of Miroslav Philharmonik the full potential of the orchestra is unleashed. Starting with the most innovative facilities for the musician and sound engineer, Philharmonik offers both Pro and Power users a wide range of features and tools. It allows the user to access every sample and render an unlimited number of variations in all available parts of the collection. The flexibility of this product lies in the exhaustive attention to detail and sophistication to ensure that every sound is recreated using the full spectrum of human hearing: the instrumental sample itself, the polyphony and amount of articulation and the dynamics. All sample sets have been conceived with MVO, a unique recording facility, mixing and processing in the minimal time needed with the minimum number of man hours and resources. Further novelties are the comprehensive editing and management tools, the powerful A, B and C format audition, and the selection of articulations. MVO is the only complete orchestral and choir workstation that offers a pioneering technology to the user. The reference is the result of 12 years of work and research and is not comparable to any other sample library of this kind. In addition, all MVO collections have been developed by professional musicians from top orchestras and choirs from over 10 countries. This means that each sample is of the highest quality and guarantees state-of-the-art recording and mixing
