Marble Skies is the third book of the Dragonlance series. It was published on June 9, 1999 and is the first published book written by Erin Lindsey, the Dragonlance series, and the first published at the end of the series. Plot introduction The events of this story take place after the events of Icewind Dale. In this story, Raistlin travels in search of Takhisis and answers his fate before the War of the Lance. Plot summary Marble Skies takes place 1 year after Icewind Dale, more specifically the year 987 since the founding of Krynn. In this year, the events of Icewind Dale and the time immediately after have fallen into the past and have yet to be told. The story starts where it left off in Icewind Dale and continues with the heroes setting out on a journey to find what is left of a once great city in Northrend, Caergoth. Kalecgos and Magius on an urgent mission to learn Takhisis's whereabouts discover a strange artifact which apparently summons a powerful evil entity who is controlled by a "demon" that makes a query of his name. Takhisis is named and her intentions become obvious. She has summoned a creature who will allow her to conquer every world in the multiverse (with the exception of Krynn, the alternate dimension of Krynn's history) then allow the demon to gain control of it in order to rule it. Every life form in the universe will be used to fuel the demon's body, feeding off their life-force for centuries. Kalecgos is the first to rescue Magius who was captured by the demon. Kalecgos then encounters Lassie a Hylar who is searching for her family. He discovers that her family was rescued by Magius and Kalecgos and they are heading to Caergoth to follow Magius. They join forces in Caergoth with the rest of the heroes. They meet with Liroy, and are joined by Ashen-Shugar, who has been awoken by the artifact's summoning. Everyone is given a demon body by the demon monster for a time being and then battle begins with forces of good engaged by forces of evil. Raistlin cannot be defeated by the forces of good but cannot best Kalecgos or the other warriors. Only Tasslehoff and Berthold Egil seem to be making headway against Raistlin who still sets a trap for
