**What's new:**

Available for Free for Pre-Order Customers About Worms Reloaded This game is an 1160 year old parody and homage to the real-time strategy game worms, focusing on its two most distinguishing features: simultaneous damage and replays. Besides heaps of worms and fun things to blow up, it features a game engine that allows you to find bugs and inject code into them. In Worms Reloaded, you can chain up to five weapons in one attack, all of which are available to your blob's right arm. Worms Reloaded also provides extensive cannon customization, giving you the ability to choose between five preset cannon models, up to six custom models, a custom pattern and three custom markings. Each weapon you add to your cannon helps to change the properties and behavior of your cannon, giving it different effects and effects of strength. Rollout... Groovy! Features Up to 5 Weapons- Introducing worms with more than one arm, which allows you to choose between up to five different weapons for one worm. - Introducing worms with more than one arm, which allows you to choose between up to five different weapons for one worm. Bullet Time Mode- Worms can squeeze bullets in and out of themselves to instantaneously shoot their way to their destination without getting hit in the process. - Worms can squeeze bullets in and out of themselves to instantaneously shoot their way to their destination without getting hit in the process. Randomization- Each worm is a unique achievement. - Each worm is a unique achievement. Worm Dimension- The world where the worms play is alive and changing. These changes create new and exciting possibilities. Worms in the Dimension move at different speeds and even look different. They also walk and crawl differently, and sometimes even swim in the water! - The world where the worms play is alive and changing. These changes create new and exciting possibilities. Worms in the Dimension move at different speeds and even look different. They also walk and crawl differently, and sometimes even swim in the water! Worms Can Change- Worms' bodies can stretch and contract to help them change shape. By stretching their entire body or only certain areas of their body, worms can change body parts completely. This makes a series of explosions much more than an explosion. - Worms' bodies can stretch and contract to help them change shape. By stretching their entire body or only certain areas of their body, worms can change body parts completely. This
