Egypt's revolution: How Mohamed Morsi came to power Published duration 26 December 2012 media caption Mohamed Morsi's first address to the Egyptian people is shown in video Mohamed Morsi, Egypt's first democratically-elected leader, says he was not aware of a contract he signed pledging to serve for one term. But the US has already threatened to freeze some aid, and the BBC's John Hollingsworth says there are now concerns that Egypt is on the brink of a new civil war. Mr Morsi, who is now facing a challenge to his rule by the army and the police, met the US vice-president on Wednesday. The Muslim Brotherhood says it has won more than 80% of the vote in the presidential elections. In return for much of the \$1.5bn (£974m) in aid received since Mr Morsi's election, the president agreed to a set of conditions - including promising not to introduce an emergency law, failing to amend the constitution and holding free elections in six months time. In a video address, he said that he had signed the document for the sake of "legitimacy". He said he had not been aware of the stipulations and was relying on the prosecutor general to take him to court. But a presidential spokesman insisted that the president had been well aware of the contents of the document, according to Reuters. The White House said it was still reviewing the agreement, and that the US's stance would not change. On Wednesday, the US vice-president Joe Biden called Mr Morsi to tell him the White House would still not recognise his presidency, a senior US official told the BBC. In the BBC's diplomatic correspondent, James Robbins, in Washington, senior US officials had been expecting this move and it was not a major surprise, he says. 'Sugar daddy' The White House official said the president had been "well aware" of the conditions that had to be met, but it was not clear how this would work in practice. "Can a person be elected on a

platform that clearly violates the US foreign policy and the law?" the official said. The Brotherhood has struggled to control the streets of many parts of Egypt since the revolution began in February 2011. Its followers and the military say Egypt has reached a turning point and that a rule by the Brotherhood would cause more chaos, says the BBC's Lyse Doucet in Cairo. image
