Knjiga Pdf 15 and 50 more episodes by AddThis. This volume of monographs edited by Norman Fairclough (Toronto) addresses the legacy of anti-colonialism, including African-Canadian perspectives on anti-colonial activism and anti-colonial land reform. The title of this collection pays tribute to C.L.R. James' contention that the centrality of anti-colonialism in the modern development of the Black world has been sorely neglected and continues to be underestimated in

scholarship. The chapters examine some of the key political and philosophical foundations of Black anti-colonialism, as well as activism in areas such as Pan-Africanism, Zionism, Marxism, black literature, and identity, using quantitative and qualitative data from the respective chapters. The volume offers a new understanding of the importance of Black anti-colonialism to understanding the expansion of global capitalism in the twentieth century. As well, it provides an important reference

work in the study of colonialism
and postcolonialism. "This is a
timely collection of essays that fills
