"Professional Football has long been a strong theme in FIFA," said Sacha Truchanowski, FIFA football game producer. "Now players are fully immersed in the action thanks to the advances in motion capture technology. We have built in a new animation system based on this data to animate all players on the pitch, no matter if they are strikers, midfielders, or defenders. This will make games more realistic, and bring fans closer to the action than ever." FIFA 22 introduces Pure Player Motion, a new animation system inspired by the World Cup trophy and FIFA World Player of the Year gameplay. Pure Player Motion represents a major innovation in the way players are animated, and is primarily visible in the cover athletes and new animations available in several game modes. Cover Athlete Careers Brand: EA Set in the latest FIFA World Cup™, FIFA 22 introduces new Career Mode content, allowing you to play through the history of the game in the way that you like. What's new in Fifa 22:

- **Movement: FIFA 22 introduces “HyperMotion Technology,” which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.**
- **Pace: Timed speed cuts, shooting and dribbling animations that replicate real-life movement including putting on transfers, dribbling on the wing, and sprints.**
- **Switch between players on the field: Transfer one player to a teammate or use an opponent as cover through the press or tackle. It's a new way to win the ball in Ultimate Team.**
- **Quickpass: Quickpass accuracy is improved - thanks to the crowd and goalkeeper along with the remaining tackle length and pass options.**
- **Substitutions: Talents, combinations, and players from all leagues added to the FUT Seasonal Draft.**
- **Defensive Attributes: Defensive attributes such as AI attention and organisation for defenders during long-balls is now more contextual and realistic.**
- **More female athletes: AI STRIKES, more female athlete and player styles, increased female athlete visibility, more elite female athletes created in career mode and improved female player attributes**
- **Real-world dynamic weather effects: It's more intense on pitch with storms, thunder and lightning adding to the atmosphere.**
