I want to get all the text from this textarea. How can I get it? Thanks A: You can use JQuery. \$("#TextAreaId").val(); A: Use text: \$("textarea").text(); or access the value: \$("textarea").val(); A: val() is the jQuery function to do what you want. Try this: \$("textarea").val(); only other major area of wear next to the toe box. By the time we used the shoe, it had become loose and was starting to peel up. Where the sole meets the right foot, you see a bunch of holes in a "V" shape. The problem appears to be at the right edge of the outsole. The material is peeling off and I have no idea what would cause this. An interesting aspect, the right foot is actually cleaner then the left foot. This is a bit puzzling because it wouldn't normally be the case. Both the left and right shoe are practically brand new, so the wear I see isn't beyond normal. None of the other shoes out of the box were quite so loose. I was actually surprised at how snug the shoes were out of the box and came in at a size 11. I had to make an effort to get the stiffners in place, they never had a tight

Here is a problem in quantum field theory with a diagram (figure). I am looking for a way to represent this diagram, which I can use to ask a question (for example what is the photon-fermion vertex). I want to know how to represent this problem in a diagram so I can ask about it. A: You can (and, presumably, have). It is sometimes helpful to use the physics tag to ask questions related to particle physics. You might want to read this post on meta about a question we recently closed because it was off-topic, but at any rate it contains a link to a relevant section of the FAQ We are looking for questions about: Physics, theoretical physics and experimental physics on the full time and part time SE sites. Physics Stack Exchange is not a debugging service. If your question is about physics, it is probably off-topic. Physics software and hardware Physics education (physics.se is not a repository of solutions to common problems) As a general rule, if your question could be on-topic on another Stack Exchange site (within the scope of physics.se) it is probably off-topic here. This particular question you asked is definitely off-topic here as stated in the linked meta post, because it is clearly about debugging and not about physics. # -*- coding: utf-8 -*- """ pygments.styles.pastie ~~~~~ Style for Pygmentized paste. :copyright: Copyright 2006-2010 by the Pygments team, see AUTHORS. :license: BSD, see LICENSE for details. See the news item above for the full details. NEWS & UPDATES: March 2, 2020: A lot of things have changed with the game in the last few weeks. I am now constantly working on things during the day to keep everyone as busy as possible and have had to cut my gaming time to a few hours in the evening and also do other stuff. I'm taking a break today to make sure I stay focused on what I'm doing, but I'll be back on March 9th. See you then! March 1,
