The app is being developed with Intel xdk for windows phone and is using ECLIPSE IDE. I have updated the SDK to 14.0.0 (the latest), checked the target platform as Xamarin.iOS (arm64) and build environment as Build 128 on macOS High Sierra. I have been using the Xamarin Offline debugger to debug my app. As soon as I launch the debugger, it opens the application automatically as it should but the Home screen does not show my custom icons on the home screen? A: It took me some time to find the reason for this. But the answer is pretty simple. The app was developed for windows mobile 6.5. So, it does not support iOS 13. Do note that Intel xdk for windows phone
