WinZoom With Key Free Download [Win/Mac]

WinZoom is a simple tool that enables you to increase the size of all icons, text and other elements on the desktop screen. The application is easy to use – it will display a zoom button in the system tray and when you click on it, the screen will be zoomed. To enlarge or reduce a displayed element, simply press a corresponding hotkey on the keyboard. Additional functions: You can choose the color and size of the texts and icons, display a numerical score at the beginning of each paragraph, and switch the navigation direction between the left-right and the top-bottom. The tool also has an automatic "Automatic Zoom" and "Drawer" features – every time you open the application, the computer will use the previously saved state of the zoom factors and automatically adjust it. In addition, WinZoom allows to scale large icons and displays the desktop space correctly. Many other functions have been added, including an "Instant reload" feature, the "Histogram", "Bounce" buttons and other useful functions. NOTE: The whole setup is completely free! Additional Features:

- Adjustable zoom levels up to 36x
- Graphic editor and icon editor
- Color change
- Size change
- Left-right and top-bottom navigation
- Size-up feature
- Restores previous zoom state
- Automatic zoom, Drawer, and Instant reload
- Reverse the direction of navigation
- High-quality icons with transparency

It will be available for Ubuntu 9.04, 9.10, and 10.04. To get the installer for Ubuntu 9.04 visit [here](#). Thanks for the interest in MateVista, and I'm thankful for your feedback. I also want to thank all those who download and/or are willing to download and use the tools included. Without you it would not be possible. MateVista 0.4.0 has been released. I'm working on 0.4.1 now. It's a bug fix release. If all goes well with 0.4.1 I'll release 0.4.2.0. The 0.4.0 series of tools were a big change from the way I've done things in the past. I wanted to make them easy to install, easy to use, and easy to update. In these releases a few things that I wanted to improve upon I did, but they were never really finished, 09e8f5149f
