Photoshop's native file formats are PSD and TIFF. However, many free image editors such as GIMP, Paint Shop Pro, and Paint.NET can open them as well. On the iPhone, use the Paint and Photos apps. On the iPad, use the Photos app and the iPhone Photo Editor app. Photoshop is the industry standard image manipulation program for so long that its name has become a verb. It is common parlance to say that an image has been "photoshopped," or even just "shopped," meaning that it's been edited or manipulated. So, you'd naturally think that the use of Photoshop is much more prevalent than it actually is, because it's the industry standard. As a photographer, if I use Photoshop, I'm automatically deemed

to have some sort of talent. So when your subject is sitting there in your photo and you tell them, "Hey, Photoshop's going to really help you out. It's going to get your skin looking all natural, or get rid of all your wrinkles, or make your face look just like someone else's, blah, blah, blah," it's like, "Really? Then why aren't you using Photoshop to do that?" And then they get all bummed out and think, "The only reason they're taking my photo is so they can edit it and get out of my hair." Either way, I guess, you're the reason they're not using Photoshop. To be honest, though, I am not actually that good at it. In fact, the only reason you probably have seen my work is because I was forced to use Photoshop. In my studio, we have a ton of new clients that have never used Photoshop

and never will. If I had left the studio and gone back to just sticking to working in the darkroom, I never would have been able to expand my career, and most importantly, I wouldn't have met my wife, who is probably one of the greatest images I have ever created in my entire life. I took hundreds of rolls of film before I got married. I put each of those rolls in a box, and I left it out for ten years. I picked the box up one day and put it away, and now I've had my wife for exactly 10 years! If I wanted to do this again, I would not use Photoshop. If I have a chance to add a touch of this or that to
