### **What's new:**

**Pusher At the beginning of 2011, we started looking into the possibility of closing some of our external meetings in favour of local group meet-ups. As with any new project, we wanted to be as open and as inclusive as we could, and spend time getting to know our potential participants. At the same time we were watching the roller-coaster of various bike shops closing down and only selling parts, whilst not needing to make any money from bikes themselves any longer. This saw the time of events for people looking to buy, sell and get on, get off, give or sell a bike becoming pretty limited, if their local bike shop or even Biketown weren't their only means of doing so. With these factors in mind, we took the decision that we would indeed aim to start a regular local group meet-up run by local people. From there, a couple of meetings were organised during the winter**

months. What we didn't have to organise was the structure of the actual events, whilst still deciding how meetings would go forward. For the next twelve months, as many people as possible had a hand in getting the South Manchester meet-up group to a stage where it could re-start. A handy blurb about Meet Up groups here. From there a couple of people were happy to help get the first meet-up details together and a plan was in place for how our regular meetings would go. Over time a meeting structure was agreed. Each shop put up flyers letting people know when the group was meeting again. We continued to experiment with how events were structured and tried hard to ensure that there was something for everyone at all times. During this time, person after person took the chance to ask for and organise local stores to join with us, and we were very well supported. Thinking back now, it was an amazing three months, involving many new people, and lots of the people who were there at the beginning continue to be involved in the group and help out at events and meetings. By the time we set up the Facebook page back in September, a couple of us knew that some of the events we were having down here in Manchester were not going to be as easy as transporting a load of us on our bikes. It will be a lot easier then to ask for people to help move the hotel, and ask if the person would mind checking out who's going to be arriving, and decide how you want

You play as Amora, the Crystal Guardian, and you have to save her lover from evil M. **Malha, Malham, and Cabal in the jungle. They are woken up only when Amora passes by. Amora has to save the animals before she will be able to come back again. Furthermore, in some levels, you will have to collect 10 Malha, 10 Malham, or 10 Cabal. The number of animals collected will depend on the level. Use your umbrella to throw the animals to you so you can catch them. To help you, you will have 3 magic stars. You can jump and glide on the animals. If the animal is bigger than you, you will fall. Use the arrow keys to move, and use the spacebar to jump. You can use Amora's magical umbrella too. Press the down key to dash, press the up key to boost, and press the spacebar to fire the energy balls. Before an energy ball is fired, the umbrella icon will turn yellow. The goal in each level is to use Amora's umbrella to go through 5 portals, each with a door with a different pattern. The door will be green if you have all the right animals on your team. You have to find all three animals. If you find the animals, you will be able to push the door. When the portal has a door and an icon, Amora will throw the animals to you. After you get all animals, you need to go to the end of the level and enter the room with the right door. But M will try to block your way. Kill the M and make Amora and her animals go back. When all animals are placed, the power of the items will**
